PROFESSIONAL SUMMARY

A Computer Science and Engineering student at American International University-Bangladesh (AIUB) with a strong interest in software development and hands on experience through academic and personal projects. Comfortable working across the stack with modern web technologies in building scalable web applications using React, Next.js, Node.js, Nest.js and ASP.NET Core with RESTful APIs and relational databases. Eager to apply technical knowledge, contribute to a collaborative team, gain practical industry experience and continue developing as a software professional.

EDUCATION

BSc in Computer Science and Engineering	December 2026 (Expected)
American International University-Bangladesh (AIUB), Dhaka	CGPA: 3.98 / 4.00
Higher Secondary Certificate (HSC) — Science	2021
Dhaka Cantonment Girl's Public School and College, Dhaka	GPA: 5.00 / 5.00
Secondary School Certificate (SSC) — Science	2019
Banani Bidyaniketan School and College, Dhaka	GPA: 5.00 / 5.00

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, C++, PHP

Frontend Development: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap

Backend Development: Node.js, Nest.js, ASP.NET Core, RESTful API's

Databases: PostgreSQL, MySQL, Microsoft SQL Server

Tools & Technologies: Git, GitHub, Postman, Figma, Trello

PROJECTS

MediCore Hospital Management – Doctor Module | NestJS, NextJS, TypeScript, React, PostgreSQL, Tailwind CSS | [GitHub](#)

- Developed Doctor module backend using Nest.js, Node.js, TypeScript, PostgreSQL with JWT authentication and BCrypt password hashing for secure user access.
- Built the frontend using Next.js, React.js, TypeScript, Tailwind CSS, Axios for API communication and responsive UI design, while integrating SSR and CSR to optimize performance and improve user experience across the application.
- Implemented authentication system including doctor registration, secure login/logout and JWT-based session control with protected routes.
- Designed doctor profile management with one-to-one mapping and appointment system for scheduling, tracking and managing doctor-patient consultations.

Dhaka-Metro-Rail | PHP, JavaScript, MySQL, HTML5, CSS3 | [GitHub](#)

- Developed a metro rail ticketing web application with ticket booking, route management and role-based access control (RBAC) for passengers, administrator and employees.
- Designed a responsive and cross-browser compatible frontend using HTML, CSS and JavaScript and implemented backend logic and database integration using PHP and MySQL following MVC architecture.

Restaurant Management System | ASP.NET Core MVC, C#, SQL Server, Bootstrap 5 | [GitHub](#)

- Developed a restaurant management system with role-based access control for customers and admin.
- Designed responsive user interfaces using Bootstrap 5, Razor Pages, HTML, CSS and JavaScript, implementing features such as menu browsing, ordering, reservations and order tracking.
- Designed backend functionalities and relational database architecture for managing users, orders and feedback.

SafeHer-Women's Safety Mobile Application | Figma, Trello, Requirement Specification, Testing | [GitHub](#)

- Designed and documented a women's safety application by defining functional and non-functional requirements, system workflows, and emergency response features.
- Applied Agile Scrum practices with Figma and Trello for iterative design, backlog management and testing to ensure a reliable and user-centered solution.

ACHIEVEMENTS

- Awarded Dean's List Honors for Academic Excellence (From Fall 2023–24 to Fall 2024–25), AIUB
